RIDEPRO: COMPREHENSIVE VANPOOL MANAGEMENT

RidePro's vanpool modules provide a full suite of administrative tools for vanpool operators and subsidy providers to manage all aspects of vanpool programming from start to finish. RidePro enables the ongoing exchange of information between vanpool groups, vehicle providers, sponsoring organizations and regional rideshare services. The software provides robust, proven NTD reporting, advanced pool management, vehicle maintenance tracking, and vanpool billing and fare collection. Each component is customized to the needs of your program. Available modules include:
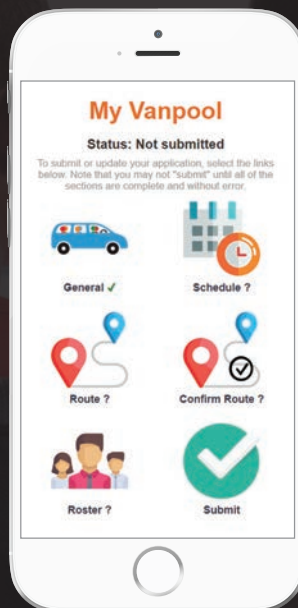

- Advanced Pool (Route, Roster, Waitlist, Application) Management
- NTD Reporting
- Billing and Fare Collection
- Vanpool Vehicle Maintenance

HOW IT WORKS FOR YOUR RIDERS

- Quick and simple search for vanpool routes – even before registration
- Easy online registration with vanpool program
- One-click request to join a vanpool route, with a wait list if the route is full
- More control over their ridesharing experience
- Mobile access to their ridesharing profile and personal details via responsive site and app

HOW IT WORKS FOR YOU

- Streamlines intake process to save your staff time
- No more manually inputting data into spreadsheets
- Ability to offer added value and services to your staff
- Easily access vanpool information anywhere and anytime
- Create and manage optimized routes quickly

## VANPOOL MANAGEMENT SOFTWARE FEATURES

- Routes are created with any number of pickup and drop off stops
- Rosters are maintained with the easy assignment of commuters to the vanpool and removal as needed
- The public, vanpool leaders and administrators interact through an online portal and advanced wait list feature
- Vanpool leaders, sponsors and vehicle providers can be incorporated in the vanpool operations
- Advanced role management makes it possible to use multiple vehicle providers, which promotes better pricing for your program, all while collecting data in a cohesive format and presenting a one-stop shop for commuters.
- Vehicle inventories are maintained and tracked
- Scheduled and unscheduled maintenance is easily managed
- Vanpool fares are automatically generated, with online payment and statements

WHY IS TRIPSPARK VANPOOL MANAGEMENT THE PERFECT SOLUTION?

RidePro seamlessly manages the flow of information between all parties in a vanpool service to make the process easy and efficient. Our web-based system allows uncomplicated access for all stakeholders: from program administrators down to the vanpool group leaders. And of course, our vanpooling software integrates seamlessly with our other rideshare applications, ensuring that you can maintain oversight over your entire commuter program.
